Forecast for Monday 19 Oct 2020

Weather: Persistent rain across Skye and Lochaber in the morning, but patchy rain in the north with some drier weather here. Then all ranges seeing persistent rain in the afternoon and evening, some of this heavy especially in the southwest of the area.

Chance of cloud free mountain/hill tops above 800m: 50%. Extensive cloud down to 400 metres across the east throughout. West coast will be clearer for much of the day with patchy cloudy around 700 metres, although the Cuillins and Glen Shiel seeing low cloud becoming extensive down to 600 metres through the afternoon.

Visibility: Poor in heavier rain, but good outside of rain in the north in the morning.

Met Office Aberdeen Meteorologist's View

Drenching conditions developing across Skye and Lochaber, watercourses becoming fast flowing by afternoon

Forecast for Tuesday 20 Oct 2020

Weather: Much of the morning will be wet. However drier conditions will spread north across all ranges by the middle of the day with some dry weather into the afternoon. Further rain will extend north later in the afternoon and evening across all ranges.

Maximum wind: Easterly 20 mph

Chance of cloud free mountain/hill tops above 800m: 50%, cloud lingering across eastern ranges down to 300 metres. Clearer across the west, although low cloud returning to Skye and Lochaber later in the afternoon.

Visibility: Generally good outside of cloud and rain.

Temperature: **Glens:** Plus 6 rising to 12 Celsius
At 800m: Plus 8 Celsius
Freezing level: Above summits
